

Subject Index—Volumes 130-137

A

Abstracts

proceedings of the American fracture association 38th annual meeting, **130:306**

Acromioclavicular separation

complete

biomechanics and comparison of two operative methods of treatment, **130:267**

repair using a Dacron prosthesis graft, **131:247**

treatment by transfer of the conjoined tendon and distal end of the coracoid process to the clavicle, **135:157**

Air gap magnification technique(s)

in upper extremity fractures, **131:173**

A-K stump dressing

a simple, **135:187**

Alkaline phosphatase

ultrastructural localization of

in initial intramembranous osteogenesis, **135:218**

Allograft(s)

fresh osteochondral

muscle pedicle graft technique and,

treatment of osteonecrosis of the hip with, **130:202**

osteoartilaginous

compared with autografts in the treatment of knee joint osteoartilaginous defects in dogs, **134:342**

Amputation(s)

below-knee

using the sagittal technique

comparison with the coronal amputation, **131:195**

epiphyseal transplant in

effects on overgrowth in a rabbit model, **130:285**

extremities

parts of

replantation and revascularization of, **133:212**

upper extremities

reattachment

method of bone fixation in, **133:169**

Amsterdam suspension balanced suspension

after hip surgery, **132:55**

Anastomosis(es)

microvascular

application on the replantation of amputated digits and hands, **133:106**

Anemia

sickle cell

and allied hemoglobinopathies

orthopedic aspects, **130:154**

Anesthesia

local

arthroscopy of the knee under

controlled pressure-irrigation and, **134:176**

Aneurysm

sciatic artery

persistent sciatic artery and, **132:68**

Ankylosis

massive

following total hip arthroplasty, **137:49**

Antibiotic(s)

penetration of synovial fluid by

in infected and normal knee joints, **136:304**

Antiembolism stockings

graded-compression

efficacy in patients undergoing total hip arthroplasty, **132:61**

in patients undergoing total hip arthroplasty, **132:61**

Aplasia

tibial

femoral bifurcation with, **135:26**

Arm

severed

replantation of, **133:3**

Artery(ies)

popliteal

traumatic arteriovenous fistula of

associated with a closed subtrochanteric fracture, **133:227**

sciatic

persistent

sciatic artery aneurysm, **132:68**

Arthritis

assessment

a patient administered questionnaire for, **131:123**

rheumatoid

bilateral total hip and knee replacement in adults with, **137:120**

cervical spine in, **131:130**

knee synovectomy for, **134:168**

septic

associated with avascular necrosis, **134:325**

of the hip

in infancy, **132:115**

assessment

a patient administered questionnaire for, **131:123**

rheumatoid

bilateral total hip and knee replacement in adults with, **137:120**

cervical spine in, **131:130**

knee synovectomy for, **134:168**

septic

associated with avascular necrosis, **134:325**

of the hip

in infancy, **132:115**

Arthroplasty(ies)

Charnley

- deep venous thrombosis following, **132:24**
- hip performed for protrusio acetabuli, **132:12**

Charnley hip

- eight year results of
with special reference to the behavior of
bone cement, **137:24**

Charnley low-friction

- an evaluation of a method of trochanteric
fixation using three wires in, **132:31**
- socket wear in hips, **137:37**
- postoperative dislocation after, **132:19**

excision

- for the infected total hip replacement with
delayed wound closure, **137:106**

hip

- cemented double-cup, **134:45**
- matching cups, **134:25**
- socket and cup surface, **134:53**

knee

- U.C.I. low friction
statistical review of 100 consecutive, **132:163**
- under local anesthesia and controlled
pressure-irrigation, **134:176**

low friction

- changes in the upper femur after, **137:15**

mould

- hip joint
evolution of, **134:5**

Paltrinieri-Trentani hip joint resurface, **134:36**

socket-cup, **134:41**

surface replacement hip, **134:102**

total hip, **137:48**

- autologous transfusion and, **132:39**
- cardiac transplant patient, **130:186**
- conservative, **134:59**
- efficacy of graded-compression antiem-
bolism stockings in patients undergo-
ing, **132:61**
- for failed endoprosthesis, **137:112**
- intraoperative femur fractures during,
137:96
- limb length discrepancy and related prob-
lems following, **134:135**
- massive ankylosis following, **137:51**
- progressive radiolucent lines in method of
measurement of, **137:118**
- relationship of intravascular coagulation and
fibrinolysis to venous thrombosis fol-
lowing, **135:148**
- subcapital prosthesis fracture in, **137:104**
- uncemented
interim results of, **137:87**
- total hip and knee
bilateral

- in adults with rheumatoid arthritis,
137:120

total joint

- activity expectations and limitations follow-
ing, **137:55**
- hemotogenous infections in, **137:69**
- number of in the United States, **132:46**

total knee

- excision of the cruciate ligaments in (letter
to the editor), **131:308**
- reply (letter to the editor), **131:308**
- infected by *Pasteurella multocida*, **132:167**
- unicompartment, **134:139**

total surface replacement hip (editorial com- ment), **133:2**

Association of Bone and Joint Surgeons annual meeting, 1978 (abstracts), **133:261**

Autotransfusion(s)

- in scoliosis surgery, **135:74**

Axonotmesis

- supracapsular
rheumatoid disease and, **134:266**

B

Bacteria

- eikenella corrodens*
in human bites, **134:320**
- mycobacterium fortuitum*
infections by, **136:247**

Bacteria(um)

- mycobacterium Kansaii*
musculoskeletal infections due to, **136:244**

Bites

- human
eikenella corrodens in, **134:320**

Bleeding states

- undiagnosed
medical treatment and, **134:249**

Blood flow

- regional bone
reply to acute effects of periosteal stripping
and medullary reaming in (letter to the
editor), **135:308**

Blood transfusion

- autologous
following frozen storage at -85°C , **137:215**

Blount disease

- review of etiological factors in 110 patients,
135:29

Bone

- calcaneus
stress fractures in
of a child, **135:119**
- cortical
mechanical properties and composition of,
135:192

- cortical
 - mineral content of
 - effect of rigid plate fixation on structure and, **136:287**
 - distal phalangeal of the third toe
 - chondrosarcoma in, **136:241**
 - femur
 - alcoholism associated ischemic necrosis of the femoral head, **130:144**
 - avascular necrosis of the head of,
 - (letter to the editor), **131:309**
 - bifurcation with tibial aplasia, **135:26**
 - biology of osteonecrosis of the human femoral head and its clinical implications, **130:47**
 - closed intramedullary shortening of, **136:54**
 - experimental osteonecrosis of the femoral head in adult rabbits, **130:8**
 - head
 - anatomical and mechanical considerations relevant to surface replacement of, **134:19**
 - current status of avascular necrosis of (letter to the editor), **131:309**
 - intraoperative fractures during total hip replacement, **137:96**
 - ipsilateral femoral shaft fractures traumatic hip dislocation with, **130:233**
 - lengthening
 - one stage, **136:66**
 - one stage
 - in the adult, **136:74**
 - staged, **136:83**
 - midshaft shortening
 - with Kuntscher nailing, **136:62**
 - operative lengthening of, **136:125**
 - primary Thompson prosthesis for fractures to the neck of, **137:62**
 - proximal focal deficiency, **135:15**
 - removal of methylmethacrylate from a new power tool for, **132:53**
 - shortening of, **136:49**
 - subcapital fractures of
 - perosseous venography in the diagnosis of viability in, **137:132**
 - surgery for aseptic necrosis of the femoral head, **130:175**
 - transstrochanteric anterior rotational osteotomy of the femoral head
 - in the treatment of osteonecrosis affecting the hip, **130:191**
 - treated with nail-plate devices, **131:191**
- upper
 - changes in after low friction arthroplasty, **137:15**
- upper end of
 - development in multiple hereditary exostosis, **137:187**
- femur and tibia
 - weight-bearing areas of
 - torn meniscus and its relationship to degeneration of, **132:196**
- fixation of
 - method of in reattachment of amputations in the upper extremities, **133:169**
 - techniques and clinical experience in replanted extremities, **133:165**
- fluid space in, **134:332**
- giant cell tumors of
 - cryosurgery in the treatment of, **134:275**
- hamate
 - clear-cell carcinoma of the lung metastatic to, **134:293**
- human trabecular
 - presence of lining cells on surfaces of, **134:350**
- long
 - extracortical attachment of bioceramic endoprosthesis to
 - without bone cement, **132:252**
 - management of in digital replantation, **133:184**
- osteopetrotic
 - dense mineralized perivascular tubules in, **137:265**
- patella
 - acute dislocations, **136:182**
 - compression syndrome of, **134:158**
 - function after removal of, **132:180**
 - nontraumatic osteomyelitis of, **132:177**
 - painful medial bipartite, **134:180**
- primary tumors of
 - wide resection and replacement with massive bone grafts, **134:302**
- radius
 - solitary bone cyst in an infant, **135:132**
- remodeling of
 - as an expression of altered phenotypes, **137:259**
- response to internal fixation
 - strain gauge analysis of **132:244**
- spine
 - dysraphism of
 - comparison of myelographic agents for studying, **134:202**
 - fusion of
 - long-term effects on the sacroiliac joints and ilium, **134:196**
 - lumbar spinous process
 - Osteotomy of
 - to increase surgical exposure, **134:218**
- stabilization of
 - in replantation of the upper limb, **133:179**
- talus
 - chondrosarcoma of, **136:234**
 - complete posterior dislocation of, **131:205**

- tibia
 aplasia
 femoral bifurcation with, **135:26**
 condylar fractures, **134:153**
 fracture non-union
 onlay fibular bone grafting in the treatment of, **130:247**
 fractures
 displaced Salter-Harris III distal
 operative treatment, **135:101**
 lengthening, **136:92**
 pin replacement
 hazards in 90-90 skeletal traction, **135:97**
 treatment of open fractures of the ankle and, **136:212**
 tumors of
 vascular pedicle fibular transplantation as treatment for, **133:158**
ulna
 distal
 congenital anterior subluxation of, **131:179**
 dysplasia epiphysealis hemimelia of, **135:36**
Bone blood flow
 regional
 acute effects of periosteal stripping and medullary reaming on, **131:266**
Bone cement
 behavior of
 Charnley arthroplasties of the hip with special reference to
 eight year results, **137:24**
 extracortical attachment of bio-ceramic endoprosthesis to long bones without, **132:252**
 fixation techniques using
 pathologic femoral shaft fractures comparing, **131:273**
Bone changes,
 cortisone induced,
 and its response to lipid clearing agents, **130:81**
Bone cysts
 cement-like bone production in, **135:295**
Bone formation
 matrix induced ectopic
 effect of EHDP on, **132:233**
Bone matrix
 demineralized
 an electron microscopic study of the origin of osteoblasts in implants of, **130:273**
Bone matrix gelatin
 mesenchymal cells and
 ultrastructure of chondrogenetic interactions between, **133:238**
Bone production
 cement-like
 in solitary bone cysts, **135:295**
Brace
 Milwaukee
 psychosocial sequelae of
 in adolescent girls, **131:156**
Brachial plexus
 traction injuries of
 surgical treatment of, **133:71**
Brain-injury(ies, ed)
 orthopedic prognosis of adults (part I), **131:104**
 (part II), **131:111**

C
Calcaneus
 stress fractures in
 of a child, **135:119**
Carcinoma
 atlas
 osteochondroma of, **136:160**
 clear-cell of the lung
 metastatic to the hamate, **134:293**
 distal phalangeal bone of the third toe
 chondrosarcoma in, **136:241**
 giant cell tumors of bone
 cryosurgery in the treatment of, **134:275**
 hand
 chondrosarcoma of, **134:297**
 metastasis from melanoma, **136:264**
 osteosarcoma
 human
 ultrastructure of, **131:234**
 primary tumors of bone
 wide resection and replacement with massive bone grafts, **134:302**
 spine
 metastatic, **136:166**
 talus
 chondrosarcoma of, **136:234**
Cartilage
 articular
 human
 glycosaminoglycans of, **134:364**
 24, 25-dihydroxycholecalciferol in
 in vitro production and activity of
 and calvarium, **135:241**
Cast(s)
 knee cylinder
 easy method for application, **134:173**
 postoperative
 polyurethane foam in, **131:259**
Cast wedging
 theoretical analysis with practical applications, **130:239**
Catheter
 Fogarty embolectomy
 use as an internal tourniquet, **132:151**

Cells

lining

presence on surfaces of human trabecular bone, **134:350**

mesenchymal

bone matrix gelatin and
ultrastructure of chondrogenetic interactions between, **133:238**

Cerebral palsy

assessment of the internal rotation gait in, **132:145**

concomitant

coxa vara in three patients with, **137:175**

hip instability caused by

results of posterior iliopsoas transfer for
(letter to the editor), **135:309**
reply to (letter to the editor), **135:310**

Chondrocalcinosis

following osteochondritis dissecans, **130:223**

Clubfoot

congenital, **130:303**

reply to, **130:305**

reply to (letter to the editor), **136:311**

external rotation tibial osteotomy in, **136:225**

radiographic evaluation of

standardized method for, **135:107**

resistant

radical one-stage posteromedial release for, **131:214**

Compressed-air workers

prevention of dysbaric osteonecrosis in, **130:118**

Condyles

tibia

fractures of, **134:153**

Consultants and correspondents, **132:4**

Coracoid process

fracture separation of

associated with acromioclavicular dislocation, **134:222**

Coxa vara

congenital

histological characteristics of, **132:71**

three patients with concomitant cerebral palsy with, **137:175**

Cruciate

anterior

chronic insufficiency

anterolateral rotatory instability associated with, **134:144**

Cyst

rheumatoid synovial

of the hip joint, **137:191**

Cystic fibrosis

spine deformities and, **131:146**

Cytogenic abnormalities

in orthopedic patients, **135:4**

D

DeQuervain's disease

superficial radial neuritis and, **131:176**

Digit(s)

amputated

hands and

microvascular anastomosis and its application on the replantation of, **133:106**

great toe to hand free tissue transfer, **133:140**

hands and

replantation of, **133:195**

replantation of, **133:26, 35**

management of bone in, **133:184**

24, 25-dihydroxycholecalciferol

in vitro production and activity of

in cartilage and calvarium, **135:241**

Dislocation(s)

acromioclavicular,

treatment by transfer of the conjoined tendon and distal end of the coracoid process to the clavicle, **135:157**

fracture separation of the coracoid process associated with **134:222**

congenital

subluxation and

innominate osteotomy in the treatment of the hip, **137:2**

hip

complete congenital

closed reduction in children under one year of age, **137:167**

congenital

effect of inverted limbus on closed management of, **137:163**

natural history of, **137:154**

myelomeningocele

iliopsoas transfer in, **137:181**

patella

acute, **136:182**

postoperative

after Charnley low-friction arthroplasty, **132:19**

talar

complete posterior, **131:205**

transverse bagonet

proximal interphalangeal joint, **133:219**

Drill

Surrgical

low cost, **131:227**

Dysplasia epiphysealis hemimelia

ulnar, **135:36**

E

EHDP

effect on matrix induced ectopic bone formation, **132:233**

Electrical stimulation
functional
recent applications to stroke patients in
Ljubljana, **131:64**
Electromyographic analysis
equinovarus following stroke, **131:47**
Embolism
fat
in children, **136:267**
role in the etiology of corticosteroid-
induced avascular necrosis, **130:68**
Endoprostheses(is)
bioceramic
extracortical attachment to long bones
without bone cement **132:252**
failed
total hip arthroplasty for, **137:112**
hip
cement-free bioceramic double-cup, **134:80**
Equinovarus
electromyographic analysis of
following stroke, **131:47**
Epiphyseolysis
as a method of limb lengthening, **133:230**
Epiphysiodesis
for limb length inequality, **136:41**
Epiphysis
capital femoral
severely slipped
combined valgus derotational osteotomy
and cervical osteotomy for **132:88**
slipped, **135:93**
base of the neck extracapsular osteotomy
for correction of deformity in, **132:98**
valgus slip of, **135:90**
distraction of
experimental limb lengthening by, **136:111**
Epiphysis
slipped capital femoral
in a 35-year-old man, **134:131**
internal fixation of, **137:148**
Exostosis
multiple hereditary
development of the upper end of the femur
in, **137:187**
Extremities
amputated parts of
replantation and revascularization of,
133:212
lower
growth and predictions of growth in, **136:7**
replanted
techniques of bone fixation and clinical ex-
perience in, **133:165**
upper
common problems in clinical replantation
and revascularization, **133:11**

replantation surgery of
stabilization of bone in, **133:179**

F

Fasciotomy
extensor
for tennis elbow, **135:179**
Fat embolism
in children, **136:267**
Fat globules
neutral
in traumatized knees, **132:219**
Femur
bifurcation
with tibial aplasia, **135:26**
proximal femoral focal deficiency, **135:15**
Fistula(e)
aorto-enteric
presenting as multicentric osteomyelitis,
131:255
traumatic arteriovenous
of the popliteal artery associated with a
closed subtrochanteric fracture,
133:227
Fixation techniques
pathologic femoral shaft fractures comparing
using cement, **131:273**
Fluoride
fluoride-treated rats
effect of vitamin D in, **130:289**
Fogarty embolectomy catheter
use as an internal tourniquet, **132:151**
Foot
medial plantar neurapraxia (joggers foot),
134:193
Fracture(s)
colles'
redislocated
management of, **135:183**
femoral neck
osteomalacia as a contributing factor in
in the elderly in Qatar, **132:129**
primary Thompson prosthesis for acute,
137:62
femoral shaft
ipsilateral
traumatic hip dislocation with, **130:233**
pathologic
comparing fixation techniques using ce-
ment, **131:273**
femur
intraoperative
during total hip replacement
hip
multiple pins for
special guide for insertion of **137:144**

- intertrochanteric
 - femoral
 - results of medial displacement osteotomy for unstable, **137:140**
 - ipsilateral humeral shaft
 - posterior shoulder dislocation with, **131:168**
 - Lisfranc
 - unreducible, **136:238**
 - pathologic
 - metal reinforced methylmethacrylate fixation of
 - the strength of, **135:287**
 - stress
 - in the calcaneus of a child, **135:119**
 - subcapital
 - femoral
 - perosseous venography in the diagnosis of viability in, **137:132**
 - subcapital prosthesis
 - in total hip arthroplasty, **137:104**
 - subtrochanteric
 - bilateral
 - Zickel nail fixation of, **137:85**
 - closed
 - traumatic arteriovenous fistula of the popliteal artery associated with, **133:227**
 - femoral
 - treated with nail-plate devices, **131:191**
 - tibia and ankle
 - open
 - treatment of, **136:212**
 - tibial
 - distal
 - operative treatment of the displaced Salter-Harris III, **135:101**
 - onlay fibula-bone grafting in treatment of non-union, **130:247**
 - tibial condyles, **134:153**
 - upper extremity
 - air gap magnification techniques in, **131:173**
 - Free flap(s)
 - overview of, **133:122**
 - transfer of, **133:132**
 - vascularized
 - transfer of, **133:154**
- G**
- Gait
 - internal rotation
 - assessments in cerebral palsy, **132:145**
 - Gait abnormalities
 - surgical correction of
 - following stroke, **131:54**
 - Gaucher disease
 - orthopedic aspects of, **137:208**
 - Glycosaminoglycans
 - human articular cartilage, **134:364**
- Gout
 - recurrent painful calf swelling associated with, **134:182**
 - Graft(s)
 - Dacron prosthesis
 - repair of acromioclavicular separation using, **131:247**
 - onlay fibular bone
 - in treatment of tibial fracture non-union, **130:247**
 - straight line
 - for leg length discrepancies, **136:33**
 - Growth
 - predictions of growth and
 - in lower extremities, **136:7**
 - Growth plate
 - structure and function of, **136:22**
 - GSB knee joint, **132:170**
 - Guest editors. **132:9**
- H**
- Hamartoma
 - congenital calcifying
 - a resolving lesion producing gastrocnemius contracture, **135:79**
 - Hand(s)
 - amputated
 - digits and
 - microvascular anastomosis and its application on the replantation of, **133:106**
 - chondrosarcoma of, **134:297**
 - digits and
 - replantation of, **133:195**
 - metastasis of
 - from melanoma, **136:264**
 - two-stage flexor tendon reconstruction in, **131:185**

THARIES surface replacements, **134:87**

Thrombosis

- deep venous
- following Charnley arthroplasty, **132:24**

Thymus

- osteopetrosis and, **135:260**

Tibia

- aplasia
- femoral bifurcation with, **135:26**
- fractures
 - displaced Salter-Harris III distal
 - operative treatment, **135:101**
- pin replacement
- hazards in 90-90 skeletal traction, **135:97**

Tissue transfer

- free
- great toe to hand, **133:140**

Tomography

- computed
- of orthopedic tumors of the pelvis, **130:254**

Torticollis

- congenital
- surgical release in adults, **131:141**

Traction

- 90-90 skeletal
- hazards of tibial pin replacement in, **135:97**
- transphyseal
- continuous, **136:120**

Transfusion

- autologous
- total hip arthroplasty and, **132:39**

Transplant(s)

- allograft knee joint
- immunogenicity of, **132:155**
- epiphyseal
- in amputations
- effects on overgrowth in a rabbit model, **130:285**
- pes anerinus
- for chronic anteromedial instability of the knee, **134:149**
- vascular pedicle fibular
- as a treatment for bone tumor, **133:158**

Trauma

- upper extremity
- revascularization and replantation after, **137:227**

Trochanteric fixation

- evaluation of a method using three wires in the Charnley low-friction arthroplasty, **132:31**

Tuberculosis

- joints infected by, **136:257**

Tumor(s)

- bone
 - vascular pedicle fibular transplantation as treatment for, **133:158**
 - calcified fibrocartilagenous nodule presenting as a
 - in the ligamentum nuchae, **136:163**
 - giant cell
 - cryosurgery of bone, **134:275**
 - osteoblastoma
 - recurrent, **131:229**
 - sarcoid
 - in skeletal muscle, **131:224**
- Tumor immunology
- of experiment osteosarcoma, **133:246**

U

Ulna

- dysplasia epiphysealis hemimelica of, **135:36**

V

Valgus slip

- of the capital femoral epiphysis, **135:90**

Vitamin(s)

- 1 α = hydroxyvitamin D₃ and calcium
- interim report on treatment of osteoporotic patients with, **135:232**

- 1 α = hydroxyvitamin D₃
short-term effects of varying doses of on
blood and urine chemistry and calcium
absorption of osteoporotic patients,
135:226
vitamin D
effect in fluoride-treated rats, 130:289

W

- Walking velocity
age and

- effects on hip kinematics and kinetics,
132:140

X

- X-ray
radiographic findings in commercial divers,
130:129

Z

- Zickel nail
fixation of bilateral subtrochanteric fractures,
137:85
